

Find more of the right loads, more often.

SELF-MANAGED LOGISTICS

Central Dispatch connects carriers with shippers on the nation's largest digital marketplace for automotive transportation. Get access to millions of cars representing **over 10 million loads posted per year**. Easily find the ideal loads for your business with shipper ratings, and notifications when there's a job available on your route.

BENEFITS FOR CARRIERS

Volume. Find vehicles to transport by searching over \$150 million in loads posted monthly by transport brokers and dealers. Just choose the region, state of origin, and destination.

Control. Review a shipper's profile, ratings, and reviews to help you decide if a load is right for you. Use enhanced route search to plug in a multi-city route for load optimization, and receive notifications when a shipper posts a load on one of your favorite routes.

Efficiency. Limit trailer type, vehicle condition, and even vehicle type. Search results show contact information, location, destination, vehicle, and the price offered per mile.

HOW IT WORKS

SEARCH. Search through vehicles and jobs on Central Dispatch.

CONTACT. Contact shippers by phone to arrange for pickup.

ACCEPT. Shippers assign their vehicle to you on Central Dispatch and you accept the agreement.

DELIVER. Fulfill the job and rate the shipper based on your experience. If terms are COD, collect payment.
